

PROTECTED FLOW MANUFACTURING™ WITH DDMRP
MATERIAL PLANNING AND EXECUTION SOFTWARE THAT ENSURES YOU HAVE
ENOUGH INVENTORY WITHOUT HAVING TOO MUCH

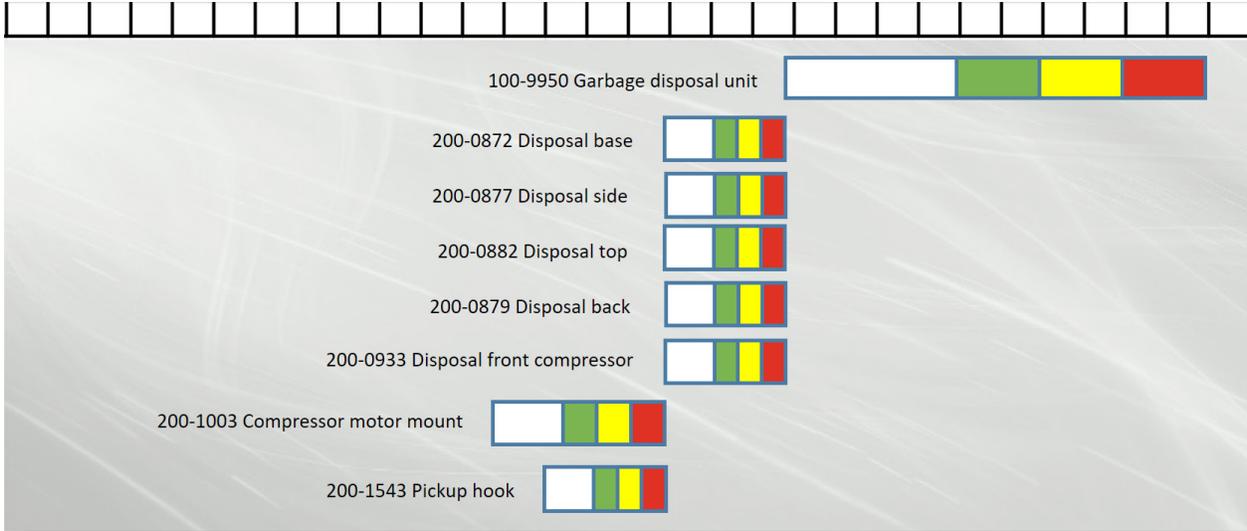

Keep Supply and Demand in Sync

AUTOMATICALLY

PFM with DDMRP turns this:

Into this:

MATERIAL PLANNING AND EXECUTION SOFTWARE THAT ENSURES YOU HAVE ENOUGH INVENTORY WITHOUT HAVING TOO MUCH

Protected Flow Manufacturing™ With Demand Driven MRP

Adding DDMRP to the power of PFM brings unique benefits to companies that manufacture finished products, subassemblies, or components to stock.

Among these are:

- **Constant availability**

DDMRP makes sure you never run out of important items AND that you never have too many on hand.

- **Lead time compression**

Always having enough long lead time components on hand allows you to shorten the time from order to shipment for your customer.

- **Appropriate priority signals to plant**

PFM with DDMRP keeps ALL production order due dates aligned with demand, even in chaotic and ever-changing environments. Each department always knows exactly what to work on next to meet current demand.
